\$119.99	4GC	1200	0.20	0.60 flat	\$120 pro-rated

AT&T Group calling is a new communications service that allows unlimited local wireless calls within business groups of 2-50 co workers and all for a flat monthly rate. Two-way radios and pagers are replaced by the wireless call quality, performance and security of AT&T Wireless Services.

Within their Group Calling area co workers who are on the same Group Calling Account can place and receive unlimited calls to and from each other using their wireless phone. Not only can co workers communicate more cost effectively within their workgroup they can also have up to five landlines or additional wireless numbers that they can call while in their Group Calling area. With AT&T Group Calling your group's communications capability is true wireless. All calls are full duplex, subscribers can talk and listen at the same time and callers don't talk over each other.

GROUP CALLING IS:

UNLIMITED calls within a group

UNLIMITED calls to up to 5 non-Group Calling numbers

UNLIMITED calls to check wireless voicemail

Group Calls: All calls must be within your Group Calling area. Each wireless phone must be on one of the Group Calling Plans and on the same Group Calling account. Airtime for all calls to Group Numbers must be placed from the Group Calling Area.

Home Area Wireless Airtime Minutes: Home area Wireless Airtime Minutes apply to calls placed while in the Home Calling Area and for calls placed in the Group Calling area to any number other than a Group Calling account or to a Group Number. Long distance charges apply when calling outside your Home area.

Included features at no charge: Call forwarding, Call Waiting, AT&T Caller ID and Detailed Billing.

Available features at no charge upon request: AT&T PCS Voicemail Plus with Text Messaging, 3- Way calling and No Answer Transfer.

AT&T WIRELESS DATA IP SOLUTIONS

With AT&T Wireless data solutions you have real time wireless access to important information. Using AT&T Wireless IP service also known as Cellular Digital Packet Data (CDPD) you will have the information that you need now. These Data solutions enable your employees to communicate quickly with a dispatcher, with each other, or to access a host database-over multiple platforms. These platforms include Wireless Internet Phones, laptops, Palm devices, Windows CE devices and mobile data terminals. AT&T Wireless data solutions help your agencies run more efficiently, reliably and at a lower cost. AT&T Wireless has dedicated data channels that do not compete with voice traffic. Wireless IP service is also affordable with flat rate pricing.

Real time database inquiry/update

Real time communication saves time throughout the day because employees can access and update the latest information.

Reduced Paperwork

Office paperwork is reduced dramatically because data is being captured electronically.

Greater Productivity

Your employees will no longer begin their day by picking up assignments at the office.

Information can be relayed by Phone, laptop, Palm device, Windows CE or a mobile data terminal while they are in the field.

WIRELESS DATA RATE PLANS

Rate Plan Code	Rate Plan Name	Monthly Service	Included in Plan
NYM	BASE PLAN	\$7.00	NONE 5cents per Kbyte

Usage out of plans is 5 cents per Kbyte. Roaming charges may be incurred in Non AT&T Markets.

AT&T Pocketnet 2000 Premiere Plan

Utilize this service with a wireless Internet Phone, Mitsubishi T250 or the Ericsson R280LX.

Phone provides voice service (voice plan required) and unlimited access to your corporate Intranet data, email, databases, custom applications and more. All for a flat monthly rate of \$14.99.

AT&T WIRELESS OFFICE SERVICE

With AT&T Wireless Office Service one number reaches you whether you're at your desk, down the hall or across the country. You will enjoy convenient PBX features on your wireless phone while you are in your office building at flat rate price. Wireless Office Service Base Stations are located throughout the facility to provide the wireless coverage that you need. Contact your Local AT&T Wireless Account Executive to further discuss the benefits of Wireless Office Service.

The following Vendor Price lists are component pricing for infrastructure for Wireless Office Service. Costs will vary depending on square footage, building structure and number of users.
